

Compact 2 Track Chair

With all of the features of the standard carry chair, the Compact 2 Track Chair has capability of attaching a track, for use when transporting a patient down stairs.

Compact 2 Track Chair #071481450

- Traditional Compact 2 Carry Chair design, but with an attachable track
- Track attaches easily to chair
- Track is removable to minimize the weight of equipment that needs to be carried by operators
- Adjustable rear handle accommodates operators of different heights
- Stores in vehicle within same space envelope as standard Compact 2
- Uses anti-bacterial BioSafe restraints and leg straps
- Easy-to-transfer chair up and down vehicle ramps
